 \bigotimes

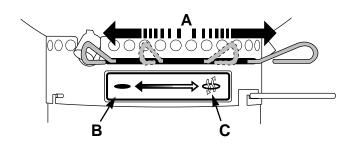

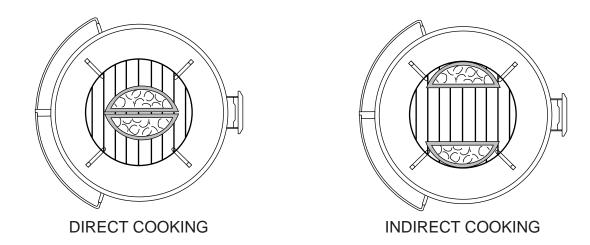

Charcoal baskets allow for convenient Indirect and concentrated Direct cooking. Slots on baskets mark the recommended fill line. Dual-Purpose Thermometer monitors temperature inside the grill, and can be used as a probe to check the doneness of food. WARNING: Do not leave thermometer in food while cooking.

A - Clear ashes B - Vents closed C - Vents open

WARNING: When using liquid starters always check ash catcher before lighting. Fluid can collect in the ash catcher and could ignite, resulting in a fire below the bowl. Remove any fluid from the ash catcher before lighting charcoal.

- ▲ Direct Cooking: Place Char-Baskets with flat sides together in center of charcoal grate.
- Indirect Cooking: Place Char-Baskets on sides of kettle with "flaps" of hinged cooking grate above baskets.
